TWO CLOSE TO CITY

(Associated Press Cable)

London, October 2.—Londoners, despite the repeated German attempts to drop bombs, are standing the test well.

Last night when two squadrons of raiders succeeded in getting close to London and some over the city, there was no panic.

Immediately the coming was signalled the people ran for cover while motor buses drew up to the curb where the passengers alighted quickly.

Within five minutes the streets were deserted and a silence fell. The air battles over London have become so much a matter of course that whenever there is a lull for a few minutes in the firing during an air attack the buses start running again and the people flock into the streets.

Shortage of men has compelled many of the great English railroads to engage large numbers of women to help maintain the operation of the systems. In the Somerton freight station women do all porter work. Everything from a box of berries to bulky piano cases must be shifted around and safely installed in cars or on trucks. The women are doing everything that a year ago was done by men.

COAL MINERS REJECT OFFER OF OPERATORS

Conferences in Effort to Agree Will be Continued.

(By Associated Press Dispatch)

Washington, October 2.—Representatives of coal miners in the central competitive field today rejected a proposal by operators offering in part the wage increase demanded. Conferences will be continued.

The operators met the miners' demands for an increase of 15 cents a ton in picked mining and in machine mining with an offer of 5 cents and proposed an advance of \$1 a day for unskilled labor instead of \$1.90 asked. The demand for a straight 20 per cent increase in pay drew a counter proposal of 20 per cent in Ohio and Pennsylvania.

General Cadorna Still Pressing On Irresistibly.

Great Victories of Past May be Repeated.

(By Associated Press Dispatch)

Washington, October 2.—Alarmed by the success of the Italian drive over the Bainsizza plateau, Germany is withdrawing large numbers of Austrian troops from France, Galicia and Bukowina, and is rushing them to the Italian front to meet the renewed offensive of General Cadorna.

Official dispatches received here from Rome today say that the second phase of the great battle is opening.

Great as was the Italian victory on the plateau the battle there is by no means finished, according to today's dispatches.

Only the first phase of the drive is passed and the Italian troops are now preparing for a resumption of action on a great scale. The Austrians, aware of the Italian purpose, are making ready a strong defensive line.

He expected to start on the return this afternoon.

GERMANY'S OFFENSIVE IS LOST IN THE WEST

(By Associated Press Dispatch)

Although the Berlin military writers are admitting that the Germans can hardly regain the initiative on the Western front the German high command is trying its utmost to keep the British from making the best use of their advantages in Flanders.

Apparently dreading the effect of the next British stroke, Crown Prince Ruprecht of Bavaria has been launching attack after attack upon Field Marshal Haig's troops in their advance positions in another effort to disarrange the British plans.

The records show the efforts of last week to have been futile. It is too early yet for the effect of the present attempt to be developed. The British commander, however, reports the attacks themselves, five in number, were complete failures, the Germans being unable to make any impression upon the British lines along the Menin road and at the southeastern edge of Polygon wood, where the thrusts were delivered.

On their front in northern France the French are holding themselves in restraint at present, permitting the Crown Prince to hammer away in attacks which almost invariably are repulsed with heavy German losses.

Two attacks by the Germans in the Crayonne sector on the Aisne front last night were repulsed. Efforts by the Germans on two occasions to recapture trenches which they had lost in the Beaumont region on the Verdun front also were unsuccessful.

BRITISH CAPTURE 4,000 PRISONERS

(By Associated Press Dispatch)

Camp Sherman, Chillicothe, O., October 2.—Major W. D. Peebles, instructor in flying at the army aviation school near Dayton, flew to Camp Sherman with a passenger this morning, paid a short visit to division headquarters and returned to Dayton.

Flying against a strong wind Major Peebles left Dayton at 7:00, arriving here at 8:20. He made a perfect landing within the camp and was met by Colonel Robert Hubble, of Dayton, commanding the Third Regiment, O. N. G., which is stationed at Camp Sherman.

Major Peebles' visit was the first airplane visit made by army aviators. Before leaving the camp he looped the loop and did other fancy flying for the benefit of the national army recruits.

CITY SOLONS PLAN TO MOVE CITY OFFICES

Service-Safety Director Ordered to Prepare the Meyers Building for City Prison, Council Rooms and Mayor's Office—Little Business Transacted Last Night.

The regular session of the city council was rather uninteresting, Monday night, and the business transacted was very little, most of the time being taken up by informal discussion.

Frank Johnson appealed for continued legislation toward the improvement of W. Temple and Draper streets but no action was taken short of funds being advanced as reason for not pushing legislation for improving Draper street in addition to the contemplated improvement of West Temple street.

The Service Committee reported on the improvement of Market street from the court house alley to the west side of Main street, by applying asphalt, and the resolution necessary for the improvement will be prepared and presented at an adjourned session of council next Monday night.

The cost, as figured by the Andrews Asphalt Paving Company, will be \$1.50 per square yard, and the total cost, which will be divided up with the city paying for the intersections and one-third of the improvement, and the property owners the remainder. The county will pay one-half of the amount assessed against the property owners. The cost to the city will be about \$1900, and the total cost is \$3,024.

It was stated by different councilmen that within a year or two similar improvement of the old paved streets would be necessary.

It was stated that the Washington Gas & Electric Company had stated that the bracket suspension lamps would be changed as soon as material arrived for the center-suspension of the street lamps.

The opening of the alley between Washington avenue and Yeoman street was reported on and the com-

mittee continued to bring in some definite report.

An ordinance to appropriate \$150 for printing and mailing some 2,000 copies of the proposed charter, and an additional \$100 for paying for the clerical work, was passed, Veil making particular inquiry if council must provide the funds, and was assured by the Solicitor that council must do so.

Veil then asked for a sewer on Kennedy avenue, and after some discussion and the statement being made that Kennedy avenue was outside the city limits, the Service-Safety Director was authorized to consult with the County Commissioners regarding the improvement.

Whelpley raised the question of disposition of the newly purchased Meyers property, and moved that the Service-Safety Director take the necessary steps to provide for Mayor's office, council chamber and city prison in the building. The motion carried. The work is to be done at once.

PATROLMEN MAY BE PLACED UPON COUNTY HIGHWAYS

Motorcycle patrolmen, or patrolmen properly equipped for causing the arrest of speed maniacs on the county highways, may be placed on the job in Fayette county in the very near future, to watch for offenders on Sundays, and throughout the week, too, if necessary.

The demand for such action has been growing apace during the past two or three weeks since thousands of automobiles are passing through the county, some of them driven by "road hogs," speed maniacs and drunken drivers.

County Commissioner Louis Perrell heartily favors such action, and if the other two county commissioners will agree to the proposal, which there is reason to believe they will, the patrolmen may soon be placed on the Jamestown and Chillicothe pike, and any other pikes where excessive speed is frequent.

It is not the desire to arrest anyone who is going at a good rate of speed, but to "pinch" the fellow who drives at excessive speed to the danger of all persons on the county highways.

In Jamestown, Sunday, 33 drivers faced the music for hurdling through town at great speed.

HERALD PICTURES UP TO THE MINUTE EQUIPMENT ADDED

Beginning this week The Herald, by a contract with The International Feature Service Company, of New York City, is able to present to Herald readers a picture and feature service that is unsurpassed by any of the big city papers.

By the addition of new equipment, a complete stereotyping outfit, including casting machinery, Miller saw, etc., and the use of "mats" or matrices furnished under the new contract with The International Feature Service Company, The Herald now casts its own plates from which the pictures are printed.

These matrices, depicting events of general interest, are mailed from New York each evening and arrive in this city ready for use the following morning, so that if an event of great importance occurs in the east today, it can be shown in The Herald tomorrow, thus keeping readers of The Herald in close touch by pictures, as well as by wire service, with the events of the day.

FILL NECESSARY AT EBER SCHOOL

If the new centralized school building is located on the site picked on the Prairie pike, it will require a fill of some 3000 square yards of earth to properly grade the ground, it is announced, and this was considered by the Union Township Board at a session Monday night.

No definite decision was reached regarding what action is to be taken, but the new building may be located on the site of the old one, or on the Garringier land in the midst of Eber.

A teacher was employed for the Roberts school, and if the attendance at that school falls below ten, the pupils will be taken to another school. The teacher, a Highland county woman, is employed from day to day.

LIBERTY LOAN SALE IS ON IN REAL EARNEST

City and County Fully Organized and Fayette's Portion Is Between \$400,000 and \$500,000—Farmers Expected to be Heavy Subscribers to Second Loan—Meeting Tonight.

The big drive in Fayette county for the sale of the second issue of Liberty Loan Bonds is now on in real earnest, the formal organization being made Monday afternoon and at a mass meeting of business and professional men to be held at the Probate Judge's office at 7:30 o'clock tonight added impetus will be given the movement in this city and county.

Fayette's quota of Liberty Loan bonds is between \$400,000 and \$500,000, and Chairman C. P. Ballard states that to keep her place among the patriotic communities of the United States, Fayette countians should subscribe a full half million dollars.

The workers are already active, and are finding ready response from citizens in general. The sales to date are very satisfactory, and indicate that there is greater interest in the present sale than in the first issue of bonds. The interest is 4 per cent and the bonds will not have to be reported to the assessor, so that the investment is a good one.

"Buy a Liberty Bond and help win the war!" This and similar admonition is beginning to stare at one from windows, billboards, in the newspa-

pers, on automobiles, mail matter, and in fact almost everywhere, so that no one can say they are not aware of the campaign to "Back the Boys in the Trenches."

Fayette county farmers will be asked to join heartily in this time to make the purchase of bonds reach or pass the mark set for this county.

Patriotic people, when able, and this means virtually everyone in Fayette county, should own a Liberty Bond, it is pointed out.

At the Monday afternoon meeting at the Probate Judge's office, the following township chairmen were appointed:

Wayne, W. T. Steers; Jefferson, W. W. Williams; Jasper, W. E. Smith; Concord, Elmer Rowe; Green, F. D. Theobald; Perry, W. E. Knedler; Marion, A. R. Stokesbury; Madison, T. E. Brown; Paint, C. W. Larrimer; Union, East, Jas. T. Perrill.

A Word of Commendation

Not more than a year ago there was a great deal of complaint about the condition of the main roads leading into Washington from the rural districts. That complaint was wholly justified by the unprecedentedly bad conditions of nearly every one of those main roads—they were, in the winter and spring, practically impassable. They seemed to go to pieces all at once—the very bottom, apparently, dropping from under them.

What to do to remedy conditions was the big problem. For weeks at a time rural Fayette County was barred from the county seat and both rural and urban residents suffered. The need for action—prompt action was imperative and, as is usual in all such crises in local conditions, there was no end of suggestions from the public and not a little severe criticism of public officials.

There was a time—just a few months back—when Washington and Fayette County were about as “bad off” for roads as any place in Ohio.

Conditions have changed. As the winter of 1917-1918 approaches there is no county in the state that can show the road spokes radiating from the county seat market hub in better conditions than Fayette.

Of course all of the roads are not perfect by any means—they are not all yet what officials and public desire or intend to have but they are good. Many of them the best improved roads and the others—all of them—above the average.

Our officials, having the roads in charge are entitled to credit for the splendid work accomplished and, after so much criticism during the times of urgent need, we are going to congratulate them. They deserve it.

The September Moon

Did you notice the old September moon rising up out of the east Monday evening and how it beamed down upon us with a sort of satisfied expression. The old man in the moon whose expression is so plain, these clear autumn nights, can't conceal his satisfaction. It is shown in the sly twinkle of his eyes and the distinct smile.

No wonder the moon smiles down upon us. Never in the millions of years that the moon has been sailing majestically through the heavens has it ever shone down upon such a scene of plenty.

The moon has lighted up the fields of battle in Europe disclosing the dire need of the suffering millions of human beings in Europe for food, has disclosed by its pale light the enormous burden which America has undertaken—no wonder then the great riot of plenty which sunshine and shower and man's industry and patriotism have conspired to arrange in a magnificent panorama of positive proof that America has been mindful of the duty and has done her part.

Somewhat the usual cold white light of the Autumn moon, which usually seems so far away, is absent now. The moon seems to have come closer to us—seems more friendly, as though it wanted to congratulate us on our good intentions carried, by deeds, in practical results.

It seems to have an expression as though it had discovered our secret and was promising to keep the glad news quiet for a while.

Failing to Keep Up

General Protopopoff, not so very long ago one of the powerful leaders in Russia—a man of influence and acknowledged ability is now a prisoner confined in a common jail charged with treasonable conduct. His fate is uncertain.

In an interview General Protopopoff stated that his crime consisted in not correctly understanding public sentiment, or words to that effect.

He is now suffering the penalty for not knowing that the world is progressing and for not keeping abreast of the times. While General Protopopoff may have spoken in sarcasm there is much of truth in his statement.

Political leaders in Russia especially during the last year who failed to realize and appreciate passing events were shorn of their power, cast into prison, exiled or executed.

In this country political leaders who fail to keep up with the people in the progress they are making are retired to private life. The business man who gets out of step and fails to realize that he, too, must move along is soon left alone with failure for his portion.

Of course, the penalty is not so severe in this country as it is in Russia. Life or liberty is not always the forfeit which political leaders are required to pay for their shortcomings.

In times like these when the nation needs every bit of patriotic endeavor of every individual and especially of public servants, it seems that instant retirement from places of authority, from the secret councils of the nation is about the lightest punishment that a justly indignant people should mete out to men like Robert M. LaFollette.

He not only fails to appreciate and help when his duty is plain but he wilfully obstructs.

Old General Protopopoff was only a poor guesser and look what happened to him.

Poetry For Today

YOUR LAD AND MY LAD

Between those cheering multitudes,
 as file on file sweeps by,
 Down toward the deep water blue
 water marching to thrab of drum
 From city street and country lane the
 lines of khaki come;
 The rumbling guns, the sturdy tread,
 are full of grim appeal,
 While rays of Western sunshine flash
 back from burnished steel;
 With eager eyes and cheeks aflame
 the serried ranks advance;
 And your dear lad, and my dear lad,
 are on their way to France.

A sob clings choking in the throat, as
 where the great ships lie;
 The batteries halt, the columns wheel
 to clear-toned bugle call—
 With shoulders squared and faces
 front they stand a khaki wall.
 Tears shine on every watcher's cheek
 love speaks in every glance;
 For your dear lad, and my dear lad,
 are on their way to France.

Before them, through a mist of years,
 in soldiers' buff or blue,
 Brave comrades from a thousand
 fields watch now in proud review;
 The same old flag, the same old
 Faith—the freedom of the world—
 Spells Duty in those flapping folds
 above long ranks unfurled.
 Strong are the hearts which bear
 along Democracy's advance,
 As your dear lad, and my dear lad,
 go on their way to France.

The word rings out; a million feet
 tramp forward on the road,
 Along that path of sacrifice o'er
 which their fathers strode,
 With eager eyes and cheeks aflame,
 with cheer and smiling lips,
 These fighting men of '17 move on-
 ward to their ships.
 Nor even love may hold them back
 or halt that stern advance,
 As your dear lad, and my dear lad,
 go on their way to France.

 une.

By Associated Press Dispatch.

The conference report adopted yesterday by the House was taken up in the Senate today with the leaders hoping for its adoption before adjournment but opposition centering on the increased second class mail rate made today's proceedings uncertain.

WILL NOT BREAK WITH THE GERMANS

(By American Press)
 Washington, Oct. 2.—All expectations that Argentina might follow the lead of her neighbor and break with Germany have been dispelled here with the news that President Irogoyen is determined not to heed the action of the Argentine congress and popular demand for action and will continue a neutral course. His suggestion that all South America determine her war course by a joint conference is not expected to bear fruit, because a similar proposal was rejected by all the other more important governments some time ago.
 A movement is already under way in the chamber to bind closer the commercial and economic interests of the South American states. Senor Castellanos has introduced a resolution in favor of a congress to consider the matter.

SOCIAL & PERSONAL

October will see the resumption of club activities, abandoned in great measure during the heat of the summer.

It is probable that this year all other interests will be subordinated to the demands of patriotic organizations, but that does not mean that there will be an entire cessation of every thing else.

Vital as are the demands of patriotism, their strain is tremendous and women in order to put forth their best efforts, need other interests to preserve their equilibrium in such a time as this. So while there will be continual effort for those at war or in the training camps; there will also be the resumption of club work.

The Daughters of the American Revolution held the first meeting on Monday, October the first.

The Browning Club will not resume its weekly sessions until October the ninth. Mrs. Martha Mark has been elected to the office of president, from which Mrs. Haidee Van Winkle Coffman resigned some time ago.

The Browning Club program teems with interest and covers a multitude of subjects to be developed under the general head of the United States.

The club motto, "A man's reach should exceed his grasp or what's a heaven for?" is the inspiration for the splendid work of the Browning Club each year.

The Cecilians issued their very attractive program Monday — modern music and musicians will be drawn on for the fortnightly programs which are always in the concert class.

The program committee, Mrs. Nina M. Craig, chairman, Ada Woodward, Jessie Leavell, Lillian Davis and Mabel Briggs, have achieved a positive triumph both in their choice of musical gems and in their arrangement and assignment. More than ever those who occasionally receive invitations to the Cecilian recitals will consider themselves fortunate.

The first program will be presented next Tuesday, October the ninth.

The Junior Cecilians the child of which the Cecilians is justly proud, has not yet completed arrangements for this year's work.

The little coterie of bright women who form the Clonians, are anticipating a season of both profit and pleasure but have not yet definitely outlined their program.

The Daughters of the American Revolution had a large attendance for the first meeting of the year and the beautiful motto for the day, "The Father's Sleep, but men remain as true, as wise, as brave as they" made its significance felt.

Mrs. W. B. Woodward, Regent presided and the afternoon's hostesses were Mesdames Joseph H. Harper, John McFadden, Minnie Brown, E. F. Todhunter, Henry Wills, Wheeler Bay, David Sutherland, Misses Rose McLean, Lucy Brownell, Ethel Pine, Del Lanum, Kathleen West, Mary A. West.

Quite a few matters of business were brought up by the Regent, and special interest attached to reports of the new historical book and letters regarding the little French orphan adopted by the local chapter.

Announcements were made of the desire of D. A. R. state officers to erect a \$15,000 hostess house at Camp Sherman.

Mrs. Frank M. Kennedy was appointed delegate to the state conference to be held in Dayton next week and Mrs. M. S. Daugherty and Mrs. George H. Hitchcock alternates. The Regent is always a delegate.

Under the general theme of "Our Country" two fine papers presented were "Its President," by Mrs. Minnie Case, of Greenfield, and "His War Message" by Mrs. Reba Bay.

Mrs. Case has contributed to D. A. R. programs several of their finest papers and her splendid paper of Monday aroused the Daughters to enthusiastic plaudits. Admirably cull-ed Mrs. Case gave a review of President Wilson's early life following his college career through Princeton, the University of Virginia and finally to John Hopkins University, where he received his degree.

Mrs. Wilson's special line was constitutional law, jurisprudence and politics and along these lines he contributed numerous fine articles to the best magazines.

He developed as a public speaker and traveled over the United States with two objects in view, to build up justice and right and to protect our people in the developments of trade. Thousands of Federal Reserve Banks through the country were the result of this.

Mrs. Case paid high tribute to the president both as a man and a nation's head and his eagerness to improve national affairs using all his great ability for the accomplishing of great results.

Mrs. Bay presented the President's War Message as the most significant saying of the American people since the Declaration of Independence — a wonderful piece of literature in its condensed thought and plain language the words of the President's War Message on April the second voiced the sentiment of the American people.

The president considered the acts of Germany nothing less than war against the people and the government of the United States and believes that all the resources of the U. S. should be used to make the world safe for democracy.

Mrs. Bay's paper was not only brilliant and interesting, but a strong expression of patriotism.

Mrs. Lona G. Hughes sang the new patriotic song "Keep the Home Fires Burning," her beautiful clear soprano giving superb expression to the dominant sentiment of the hour.

Miss Mabel Briggs, the D. A. R. pianist, accompanied the singer and also played stirring patriotic airs.

A charming innovation following the program was the serving of afternoon tea by the hostesses, Misses Del Lanum and Rose McLean poured at an extremely pretty tea table, perfectly appointed in its silver, cluny lace and dainty china. A large bowl of scarlet dahlias introduced the national colors.

There were a number of guests; those from out of town, Miss Elizabeth Billups Kennebrow, of Columbus Miss.; Mrs. Frank E. Haines, Mrs. Val McCoy.

The monthly meeting of Mrs. Eva Penn's Sunday school class of the Grace M. E. church was held Monday evening in the Epworth League parlors.

After the usual business meeting a social hour was greatly enjoyed. Delicious refreshments were served.

Those who were present were: Mrs. Penn and Misses Irene Tobin, Helen Teeters, Elton Brown, Lillian Taylor, Jesse Mantle, Marie Melvin, Elsie Craig, Faye Jobe, Eva Kendall, Catharine Rothrock, Nelle Rowan and Lella Townsley.

Mr. and Mrs. J. D. McCoy entertained thirteen guests at an elaborate dinner Sunday.

Nasturtiums and greenery formed an artistic center piece.

The guests were: Mr. and Mrs. Homer McCoy, Allison McCoy, daughter, Miss Sylvia, Mr. and Mrs. Sylvester Pond, Mr. and Mrs. L. R. Brandenburg and Mr. Edgar Pepple of Wilmington Mr. and Mrs. Howard Patterson, Mr. Cornelius McCoy and granddaughter, Miss Margaret of Leesburg.

A very enjoyable surprise was tendered Mr. William McCoy Sunday, on his seventy-first birthday.

Forty friends and relatives among whom were three generations, brought well filled baskets; and at noon a sumptuous dinner was served on long tables, which were prettily decorated with pink and white fall flowers.

A huge birthday cake with seventy-one candles was the central decoration at the honor guest's table.

Mr. Hughey Thompson brought home his charming young bride, nee Hazel Michaels, from Cincinnati, on the 8:18 train Monday evening.

The marriage ceremony was performed in Newport, Ky., at half past eleven o'clock Monday morning. The bride wore a smart tailored suit of blouse and gray hat, shoes and gloves blue serge with pearl gray georgette and gray hat, shoes and gloves.

The young couple are receiving the best wishes of their many friends at the home of the bride's parents, Mr. and Mrs. J. C. Michaels, where they will remain while deciding their future plans.

Mr. Thompson is associated with his father, Mr. J. H. Thompson, in the Thompson Transfer Co., so that their home will be made in this city.

Of widely extended interest is the announcement made Sunday of the marriage of Mr. Lewis Moore, prominent Fayette county farmer and capitalist, to Miss Mae Wilson, daughter of Mr. and Mrs. W. H. Wilson, of the Worthington road.

The marriage took place in Cincinnati the last of May, but had been kept a complete secret, not even known to the immediate families.

Immediately following the announcement Mr. and Mrs. Moore left on a few days' motoring trip through the hills of Southern Ohio. They are expected to return tonight, when Mr. Moore takes his bride, a young woman of bright and interesting personality, to his home, nine miles south of town, one of the most attractive and perfectly kept up country places in that section.

The announcement will undoubtedly be the forerunner of good wishes from a surprisingly large number of friends.

Mr. J. B. Armstrong and family entertained Mr. C. U. Armstrong and family of this city, Mr. Albert Armstrong and family of Jeffersonville, Sunday.

Mr. and Mrs. Carey Parrett entertained their uncle and aunt, Mr. and Mrs. R. B. Greenlee, Monday, also Mrs. Linnie Morris of Coffeyville, Kansas, who will be their guest for the coming week.

Mr. L. B. Conkle of Lancaster was a business visitor here Monday.

SILK MAKING ILLUSTRATED ON SCREEN

Magnificent Production of Educational Value.

Films Taken Both in Japan and the United States.

The wonderful hand-colored motion picture, which will be shown at the Palace Theatre tomorrow afternoon, will illustrate the silk industry as it is today.

The first part of the film shows the industry in Japan, with the dainty silkworms shown on the screen and the growth of the worms is easily noticeable, thanks to the "close up" photography. The method of feeding and the habits of the precious silk weavers is very noticeable.

The manner in which the silk cocoon is spun, first one complete layer of fibre then a second, the deft fingers of the Japanese girls separate the grades of silk and winding them on huge spools operated by crude wooden machinery, give you a splendid insight into the method of manufacturing silk in the east.

The second part of the motion picture program presents the more modern and efficient manner in which this peculiar material for women's apparel is manufactured in America.

War prices and European competition have caused unscrupulous manufacturers to cheapen the quality of their stocks and dyes with the result that a large percentage of the silk manufactured today consists of about 25 per cent silk with the result that the silk goes to pieces almost before it can be made up and worn.

In the attempt to fight the tin business and the adulteration of silk goods the advocates of pure silk sent a Pathe man to Japan and the pictures were secured with considerable trouble.

However, the motion pictures were obtained and they are considered one of the finest educational films ever produced.

These pictures were taken under the technical supervision of Belding Bros. & Co., who are undoubtedly the largest silk manufacturers in the world.

Already announced these pictures will be shown at the Palace theatre, Wednesday afternoon at 2, 3.15; and 4.30. People who have not secured tickets can get them without charge at the Stutson store—the films will be shown to school children at 10.30 a. m.

RECKLESS DRIVER IS DAYTON MAN WHO OFFERS TO SETTLE

Sheriff Jones, through some very clever work, has unearthed the man who caused the Grant Rankin automobile to be plunged into the ditch, and the resultant injury to nearly all of the occupants of the car while Mr. Rankin was driving on the Jamestown pike, Sunday morning.

He is said to be Steve Kender, Hungarian saloonist, of 1221 West Third Street, Dayton, and owner of a big Mitchell car bearing license tag number 44442, which number was called to the attention of Sheriff Jones as the probable car which deliberately rammed the Rankin car off the road and terrorized a number of other automobile drivers on the same road.

Sheriff Jones and Earl Rankin went to Dayton Monday evening, and had no difficulty in locating Kender, who admitted being over the road, admitted passing the Rankin car but denied that he had struck the car, declaring that he had simply passed and that Mr. Rankin had lost control of the machine, which plunged into the ditch. He admitted one of the numerous men with him had lost his hat, and he had refused to stop for it.

Kender, who is said to have caused the police in his district considerable trouble, offered to pay damages resulting rather than be prosecuted.

It is understood the affair has been considered by the grand jury.

A State War Library Committee has been appointed which will have the same weight and influence in the state that the National War Library Committee has in the nation.

SEC'Y BAKER TALKS ABOUT BRITISH DRIVE

(By American Press.)

Washington, Oct. 2.—Desperate on slaughtering on British positions by Germany's picked storm battalions are due to her fear of the British menace against the Teuton line of communications leading up to the Ostend and Zeebrugge naval bases, Secretary of War Baker's second weekly war summary says. Further the Menin road battle shows that the fighting stamina of the Germans is deteriorating, Baker declared. He adds:

"This new British advance in the Ypres salient now definitely threatens the enemy's line of communications to the Belgian coast. The Ostend-Lille railway, which in a large measure feeds the German naval bases at Ostend and Zeebrugge, the latter the home port of the German high seas submarine fleet, is now comes within the range of the fire of the British guns."

Hotel Clerk Wants Fellow-sufferers to Profit by His Happy Experience.

While the following statement from J. H. Hurd, night clerk of the Hotel Murray, of Cambridge, is of value to every reader who bears the burdens of nervous ills it has especial significance for aged ailing folks, for Mr. Hurd is over three score and ten.

Druggist Carl Brennan of Cambridge reports that Mr. Hurd's high praise of Nerv-Worth came when that gentleman was a caller at the Brennan store to purchase a second bottle of the tonic. On being asked if the medicine was doing him any good, Mr. Hurd replied:

"It is the boss medicine. Two years ago I had a stroke of paralysis which left me in bad shape. The doctors could do nothing. I had no appetite and could not remember anything. Was very nervous. A lady stopping at the hotel recommended Nerv-Worth. The first dose helped me and now I feel entirely a new man. I am 72 years old but eat more in one meal than I used to in three days. Regained my memory and getting over my nervousness. Sleeping and general health much improved. I think that by taking another bottle or two (of Nerv-Worth) will be entirely cured. You can use my name and welcome if I can be the means of helping some other sufferer."

The Christopher drug store and the Brown drug store sell Nerv-Worth in Washington C. H. Your dollar back if Nerv-Worth does not do for you what it did for Mr. Hurd. Advt.

COAL ORDERED TO NORTH WEST CANADA SHIPMENTS PUT UNDER BAN

(By American Press)

Washington, Oct. 2.—All shipments of coal into Canada from American lake ports were ordered stopped by Fuel Administrator Garfield. Coal will be diverted from these ports to meet the fuel shortage in the northwest. Many protests had been received against sending coal to Canada while the northwest and other parts of the country suffered.

The order also says the producers shall fulfill contracts for delivery of coal to Lake Erie ports for transshipment, directs all handling agencies to expedite shipments and forbids the re-consignment of such coal to any points, either in the United States or Canada, other than the northwest. Dr. Garfield thus brought to an abrupt end a situation that for weeks has been drawing bitter protests from the northwestern states. The coal shortage there is acute and will become far more serious unless the supply flows steadily from now until late navigation closes, about two months hence.

When the diversion of coal to Canada first was protested against, Dr. Garfield announced that the export council would be asked to license no shipments to Canada without consultation with the fuel administration. The Canadian buyers continued to depend on lake ports for their coal, however, and of 180,000 tons shipped daily on lake carriers only about 53,000 tons have been reaching the northwest. To meet the needs of the section the daily shipments should average 150,000 tons.

Senator Kellogg of Minnesota had a long conference with the administrator and urged that drastic action be taken immediately. Then followed the order through which Mr. Garfield, using the unlimited control over coal conferred upon him by the president under the food control act, embargoed shipments to Canada and direct movement of coal in the United States.

THE PAINTERS

The painters have started in on the job of decorating the world. They are busy every hour of the day—millions and millions of little fellows who hang their ladders to the vines and climb to the tips of the leaves and brush away with all their might. They are streaking and striping and coloring the plants and stalks and stems and leaves with the first coats, and it is going to be but a few days until they daub on the yellow and red.

There is a peach tree in the corner of our yard—a straggly sort of thing with only a few leaves upon it. I have been watching a leaf or two, trying to catch the painters at their work, but I am unable to see them. But they are working, all right, and this morning I saw a dozen tiny stripes of faint pink where there were none last evening—the faintest sort of streaks, where the fairy-painters worked all night with a brush made of a single hair from the tail of a moth. The paint can turned over, though, or slipped from the rung of the fairy ladder, for there was a splash of red paint on the lower end of the leaf, and I saw where the little workers had tried to wipe it up so the boss fairy wouldn't see it.

Then, I saw the stains of an ugly disaster that must have befallen the painters. On a leaf just below the one I am watching every day, there was a big splash of color this morning, half as large as a finger nail. It wasn't there yesterday. It was irregular and unshapely, and was not put there after a design. I believe it was where a couple of the painters, engaged on the leaf above, had fallen from their trestle and tumbled with their bucket of paint to the dizzy distance an inch below. They were probably at work, as they sang their songs of joy, when a dew drop rolled down upon them like a flood, and sent them tumbling to the leaf below, where the paint was spilled in one great splash. It was no use trying to wipe it up, nor to regain it. So the fairies left it there, and went back to the factory for another bucketful. I hope none of the little painters were injured when the dew drop struck the scaffold.—G. W. Burba in Columbus Dispatch.

INTERESTING NOTES OF CAMP SHERMAN

(By Associated Press Dispatch.)

Chillicothe, O., October 2.—They didn't get H. W. Marshall of Beaver county, Pennsylvania, in the draft, as much as he would have liked being a soldier. He was just 31 years of age. So when Beaver county boys piled aboard their special train to come to the Ohio training camp, where there soon will be 4300 Pennsylvanians, Marshall got the "fever" so strong that he, likewise, piled aboard. At the receiving station at Camp Sherman he was shunted to one side. The boys from Beaver county were marched away to their barracks and Marshall was left alone. So he went to Chillicothe.

On the following morning the Pennsylvania man appeared before Mayor Cahill in police court and told his story. He had been arrested during the night for being intoxicated. He said he was lonesome and needed "cheering up."

The Mayor made it \$5 and costs and asked: "Have you any money?" Marshall, after taking an inventory, found he had just ten cents more than the fine and costs amounted to.

Sign posts or the "guide posts" of the old days, rapidly are being put up along all roads leading into Chillicothe, so tourists coming here will not get lost enroute.

"Five miles to Camp Sherman" or "To Camp Sherman" are the labels most of them bear. Inside Chillicothe itself there are many markers at the corners of streets so that the driver may know where to turn to get to the cantonment. The guides are painted white, about two feet in length and four inches wide and the wording is in easily-read black letters.

For Sale

Residence and Household Goods in Bloomington

Having lost my wife and having no children living and now in my 84th year decided to sell at private sale my residence on Lincoln St., Bloomington, consisting of a good oak frame 4-room house, 3 good large rooms and bed room, good pantry, 2 large presses; full big lot, young fruit trees, out buildings, stable and shed, at sacrifice if sold soon so I can make arrangements for myself before cold weather.

I will also sell all household goods—home made and in good shape—comforts, blankets, pillows and feather beds, bedsteads, fine sofa and one extra heavy walnut bedstead.

Will sell at private sale. Prospective purchasers can find me at home every day from 9 a. m. to 4 p. m. and are privileged to examine property before purchasing.
